Product Information

White Tomato Extract Standardized Lycopene Beadlets 5%

Vesta Ingredients has been the leader in the nutraceuticals industry for over 30 years. The superior quality of Vesta® Brand raw ingredients has ensured the success of our clientele.

About PearlaRouge™:

PearlaRouge™ is a B2B carotenoid ingredient for brand owners and manufacturers. It combines Pearl Tomato® White Tomato Extract with standardized Lycopene beadlets. Pearl Tomato® supplies colorless carotenoids. Lycopene supplies the red carotenoid. Both are natural tomato carotenoids (*Solanum lycopersicum*). One ingredient gives your formula a complete tomato carotenoid profile. You source one raw material instead of two.

PearlaRouge™ Ingredient Advantages:

- **Two Carotenoid Classes:** Most tomato ingredients offer lycopene alone. PearlaRouge™ adds colorless carotenoids.
- **Broad Spectrum Light Coverage:** Colorless carotenoids absorb UVA and UVB. Lycopene absorbs blue light. Together they cover a wider range than either group alone.
- **Clinically Studied:** Pearl Tomato® is backed by Clinical research and published studies.†
- **Standardized and Stable:** CoAs document the 5% lycopene beadlets and a 24-month shelf life.
- **Recognized Global Brand:** Pearl Tomato® Trademark licensing is available for your label.

Why Source from Vesta?

- Certified quality systems as an FDA registered and NSF-certified cGMP facility
- Bulk ingredient or finished product manufacturing
- Full regulatory documents and access to Vesta scientists
- Halal and Kosher certifications available across key product lines
- Global supply from Indianapolis, Indiana, USA

Mechanism of Action:

Tomato carotenoids neutralize free radicals to reduce oxidative stress. Colorless carotenoids and lycopene absorb different wavelengths. Together they cover UVA, UVB and blue light.

Formulators use Pearl Rouge™ in applications that support the following:*

- **Beauty from Within and Skin Health:**
Skin barrier, even tone and youthful appearance.
- **Eye Health:**
Lycopene absorbs blue light from daily screen exposure.
- **Antioxidant Protection:**
Lycopene is a leading dietary singlet oxygen quencher.
- **Heart and Prostate Health:**
Cardiovascular health and normal prostate function.
- **Joint Comfort and Immunity:**
A normal inflammatory response and immune function.

Ingredient Specifications:

- White Tomato Extract Standardized with Lycopene Beadlets 5%
- Tablets, capsules, powders, sachets
- Food, drink, gelcaps, and gummies
- Water dispersible
- Shelf-life of twenty-four months
- Store tightly sealed in a cool, dry, and dark area
